

PRODUCT DATA INFORMATION

MX-20 HD

DESCRIPTION

MX 20 HD degreaser is a water soluble, powerful, fast acting, concentrated combination of surface-active ingredients designed to handle the most stubborn soiling of grease, oil, and carbon build ups, that exist in workshops and industrial plants. Suitable for stubborn grease, grime, and dirt.

CHEMICAL PROPERTIES

Appearance	Light Brown liquid
pH	13 – 13.5
Specific Gravity	1.1
	Non-flammable, non-corrosive, leaves no residue on drying.

USES

Use to clean workshop floors and access roads that are badly contaminated by fuels, oils, and grease. Forklifts, greasy equipment, industrial carbon and soot, tool & die equipment etc.

METHOD OF USE

For extremely tough soiling use neat.
 For heavy soiling use 1 part to 5 parts water.
 For medium soiling use 1 part to 20 parts water.

PRECAUTIONS AND FIRST AID

Concentrate can cause skin and eye irritation. After contact, flush with plenty of water.

 Before use on painted surfaces, test small area first.

KEEP OUT OF REACH OF CHILDREN
