

PRODUCT DATA SHEET

MX-90 L Asbestos Encapsulator

DESCRIPTION

MX-90 L Asbestos Encapsulator is a water soluble, environmentally friendly bridging encapsulant for Asbestos. MX-90 S Asbestos Encapsulator will bind friable asbestos and contain and stabilise any loose fibers, to allow workers to safely handle the Asbestos while removing for safe disposal.

METHOD OF USE

MX -90 S Asbestos Encapsulation can be applied by hand, with a low-pressure backpack sprayer or with high pressure equipment.

USES & Benefits

- Excellent adhesion
- Eliminates fibre release.
- Non-Toxic

SAFETY PRECAUTIONS

SKIN	Wear Gloves for protection. Wash with soap and water.
EYES	Remove contact lenses. Flush with water or saline for 15min
RESPIRATORY	Use NIOSH approved respirator

CAUTION

MX90-L Asbestos Encapsulator is a low toxicity product. Minimal PPE is required but always recommended.

If a spill should occur, immediately consult a registered waste management company, and dispose of according to municipal by laws.
