

PRODUCT DATA INFORMATION

METAL-BRITE

1. DESCRIPTION

Concentrated multi-metal cleanser and brightener. Contains special blends of acids to emulsify dirt, oil, grease and oxides while brightening aluminium and stainless steel surfaces.

2. USES

Ideal for cleaning refrigerated shipping containers, truck bodies, storage tanks, urinals etc. Safe for aluminium or stainless steel, copper and brass.

3. APPLICATION

For aluminium and stainless steel trucks and trailers: Use a solution of one part product diluted with up to 10 parts water. Working in hot, direct sun may cause streaking, therefore it is essential to wet down sides of trailer with water to cool surface before application of cleaning solution. Always use a plastic or stainless steel sprayer or bucket. Apply by spraying or with a soft acid resistant brush. Pressure washers may be used provided they are acid resistant. Always clean from the bottom up to avoid streaking. Allow solution to stay on surface for 5 minutes then flush thoroughly with water. NB. Do not allow solution to dry on cleaning surface.

For stainless steel equipment: Dilute one part product up to 20 parts water to remove rust spots and other marks from stainless steel tanks, urinals etc..

4. PRECAUTIONS

Recommended for aluminium and stainless steel. Do not use on other surfaces. If splashed on glass, rinse immediately to avoid etching.

Avoid contact with eyes, skin and clothing. When not in use keep container closed and out of reach of children. Keep container in a cool place, temperature not to exceed more than 25^o C.

Always wear rubber gloves, chemical goggles and protective clothing

FIRST AID TREATMENT: Contains acid. If slashed in eyes or skin, flush thoroughly with water. If swallowed give 3 or 4 glasses of milk or mild solution of bicarbonate of soda. Do not induce vomiting. Call doctor immediately.

4. SPECIFICATIONS

pH	0.2 – 0.6
SG	1.005 – 1.015
Colour	Straw colour
Rinseability	Excellent

KEEP OUT OF REACH OF CHILDREN
